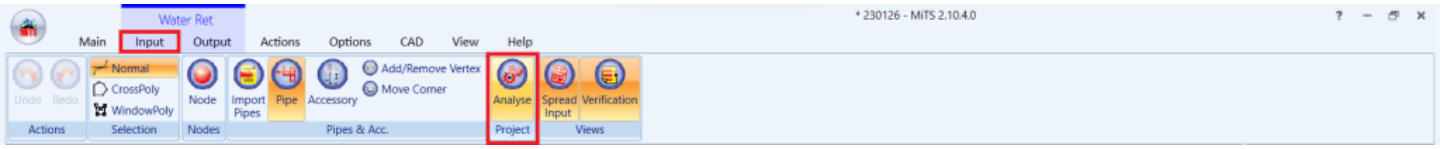
LW+ : How To Generate Long Section of Pipeline

Water · https://mes100.com/docs/lw-how-to-generate-long-section-of-pipeline/

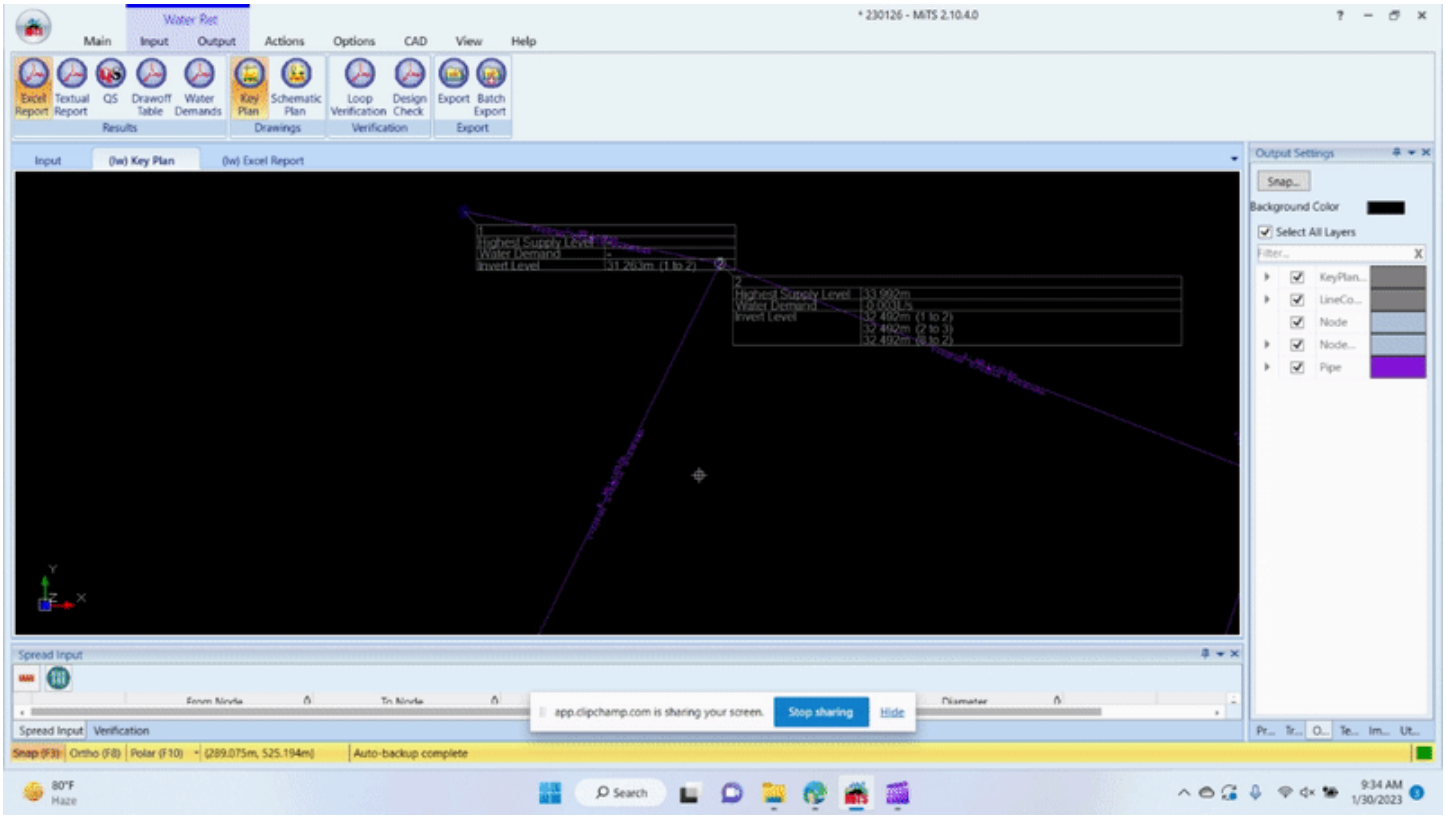
Here are the steps to generate long section of pipeline.

Single Pipe

1. Open project file >> Water Reticulation >> Input >> Analyze



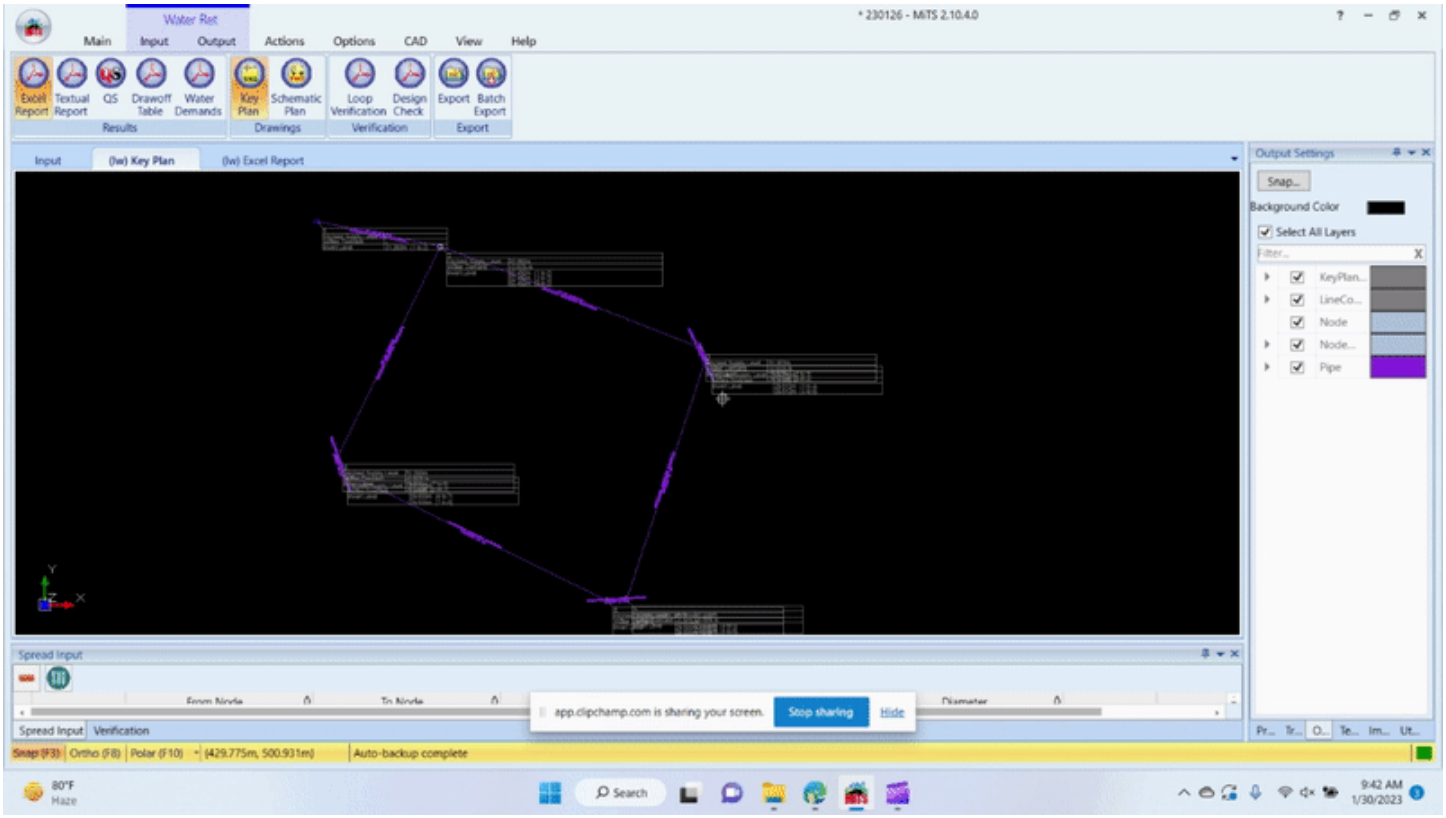
2. Click Key Plan Output >> Click on particular pipe line >> Right Click >> Click Gen Long Section



Multiple Pipes

1. Open project file >> Water Reticulation >> Input >> Analyze

2. Click Key Plan Output >> Click on pipe lines (ctrl+click pipes) >> Right Click >> Click Gen Long Section



The long section will be shown as below.
